

26th June 2023

RoHS (2017/2102/EU) Compliance Statement

Due to increased worldwide environmental concerns, the de-facto standard in the industry now is lead-free solutions in semiconductor electronic components and systems. XMOS is fully supportive of the various industry efforts throughout the world to phase out the use of lead and other undesirable elements from electronic equipment materials and manufacturing processes.

XMOS lead-free products are fully RoHS (2017/2102/EU) compliant, meeting the European Parliament Directive entitled "Restrictions on the use Of Hazardous Substances" (RoHS). This directive prohibits the use of the following elements in electrical/electronic equipment per (EU) 2015/863:

1. Lead (Pb)
2. Cadmium (Cd)
3. Mercury (Hg)
4. Hexavalent chromium (CrVI)
5. Polybrominated Biphenyl (PBB)
6. Polybrominated Diphenyl Ethers (PBDE – including Deca-BDE)
7. Bis(2-ethylhexyl) phthalate (DEHP)
8. Butyl benzyl phthalate (BBP)
9. Dibutyl phthalate (DBP)
10. Diisobutyl phthalate (DIBP)

If you have any questions or need further information on RoHS compliance status of XMOS products, please contact your local XMOS sales representative.

Sincerely,
